We all have a common history linked to the Mississippi River, and with each new trail connection, each new public access to the riverfront, and each new visual link to the Mighty Mississippi, we become more united in our future.

River Action remains committed to helping establish those connections - physical, visual and philosophical - to our common riverfront and our common future.

If you'd like to continue the momentum of our united RiverWay, we hope you'll consider renewing your membership or joining as a new member of River Action. With your help, we can continue to achieve great things in the coming years.

- Please check here if you would like to be more involved in River Action activities as a volunteer.
